

Asphalt Pavement Maintenance for Property Owners and Property Managers

PDI in cooperation with the Colorado Asphalt Pavement Association (CAPA) and the Rocky Mountain Asphalt Education Center (RMAEC), invite you to attend this informative seminar

This seminar is designed to help you with the decision making when it comes to your Hot Mix Asphalt (HMA) Pavements.

The information presented in this seminar will include:

- Maintaining your existing HMA pavements
- Methods of repairing asphalt pavement
- LEED's credits and Green HMA paving
- PMS- Pavement Management Systems
- Consumer Beware of the Asphalt Gypsies

Date and time for the training Monday, December 8, 2008

9:30 am check-in, Seminar 10:00 to 2:00 PM

Location: RMAEC Training Facility

6880 South Yosemite Ct. #110

Centennial, CO 80112

Fee: \$150 per person

**Register early, a registration form is included on the reverse side of this announcement or @ www.co-asphalt.com/education.
Space is limited! Complete the registration form and return to the RMAEC. Phone (303) 741-6148 • Fax (303) 741-6146 • rmaec@co-asphalt.com**

Agenda

9:30 AM - Registration and lite refreshments

10:00 AM - Maintaining your existing HMA pavements. This will include the reasons for maintaining your pavements and the long term benefits of properly maintained HMA.

10:45 AM - Methods of repairing your HMA pavements. This will focus on the many different maintenance applications available to keep your HMA in the best possible condition. Some of the methods to be discussed are considered main stream while others are relatively cutting edge. The topics will include but are not limited to: traditional patching, infrared patching, slurry and chip seals interlayers and more.

Lunch will be available at noon

12:15 PM - Sustainable pavements and how to get the "Green" in you parking lot. This will include information on several sustainable efforts in the HMA industry such as Porous HMA, recycling, and LEED credits.

1:00 PM - PMS is Pavement Management Systems. This will be an overview of technology to manage your paving systems. This will give the decision makers tools to keep the pavement in top condition by doing the little things it takes to maintain.

1:30 PM - Beware of the Paving Gypsies. Be an informed consumer and don't be taken by a less that reputable "Gypsy" paving contractor.

1:45 PM - Closing, question and answer session

2:00 PM Adjorn

What should I expect to take away from this session?

... A better understanding of what it takes to maintain a Hot Mix Asphalt Pavement

... How it is better to repair than to replace

... Expected life of a Hot Mix Asphalt Pavement

... Short term investment / long term savings

...LEED's for Hot Mix Asphalt will be presented

As a part of the session each participant will be given several handouts which will explain the products and processes discussed.

Please Mail, or Fax registrations to:

Rocky Mountain Asphalt Education Center (RMAEC)
